HOLDING

Glass Design è un'eccellenza Italiana nella produzione e nel design di lavabi e complementi d'arredo bagno.

Glass Design is an Italian excellence in the production and design of bathroom washbasins and interior decoration furnishings.

Situata a Vinci, cuore della Toscana e città di "Leonardo da Vinci", Glass Design è stata fondata nel 1984 dalla famiglia Borsellini, dopo una pluriennale esperienza nella manifattura del vetro artistico. Utilizzando materiali tecnologicamente avanzati, come il Siliconio o l'Inox e, lavorando ad arte su materiali tradizionali, come il cristallo molato o il vetro artistico, Glass Design contribuisce alla creazione di un nuovo stile dove l'accessorio, curato nei minimi dettagli, diventa il soggetto principale dell'ambiente, un vero prodotto "moda", apprezzato nel mondo ed esportato in più di 60 paesi.

Located in Vinci, in the heart of Tuscany and native town of "Leonardo da Vinci", Glass Design was founded in 1984 by the Borsellini family, further to a long tradition in manufacturing artistic glass. Both by using technologically advanced materials such as stainless steel or silicone, and by working in an artistic way with traditional materials like the formed 24%pb crystal and the artisan glass, the company Glass Design contributes to the creation of a new style, where even the accessory is addressed in all details, becoming the main subject of the environment, a true "fashion" product, highly appreciated in the world and exported to more than 60 countries.

Oltre 200 artigiani Toscani e una quindicina di vetrai muranesi appartengono alla filiera produttiva aziendale, permettendo di adattare ogni prodotto ad esigenze e richieste specifiche del cliente, con infinite personalizzazioni realizzando così, prodotti unici ed esclusivi.

Over 200 Tuscan artisans and more than 15 glassmakers of Murano work within the company's production chain, enabling the customization of each product to suit individual needs and specific requirements, in order to create unique and exclusive products.

FREESTANDING SOLUTIONS

I Freestanding della Glass Design nascono dalla passione e dall'impegno di dar vita a molto di più di un semplice lavabo ma ad una vera e propria scultura da terra. Un prodotto essenziale, impreziosito dalle più esclusive colorazioni e finiture che lo rendono il vero protagonista dell'ambiente.

Freestanding washbasins from Glass Design are borne from a passion and commitment to create more than just a simple washbasin but rather a real sculpture from the ground up. This essential product is embellished by exclusive colours and finishes making it a true protagonist of its environment.

Sotto

Top “**FULL COLOUR GLASS**” con lavabo sottopiano

I Top “Full Colour Glass” sono stati studiati per attribuire semplice eleganza e una perfetta coordinabilità con tutta la gamma delle cassettiere e dei pensili “Sintesi”.

Eleganza e design, creativi e funzionali.

I top vengono forniti con foro centrale e lavabo già assemblato nelle finiture scelte garantendo precisione e velocità di installazione.

RIFLESSI PERFETTI E INALTERABILI.

Una nuova materia dalle caratteristiche uniche.

Ottenuto attraverso un procedimento di scioglimento e cristallizzazione di ceramiche e particelle di silicio, un processo molto simile alle condizioni naturali di formazione del granito. Il suo aspetto esteriore invece è molto simile al marmo, ma con caratteristiche di durezza, lucentezza, inassorbenza e resistenza nettamente superiori. Assolutamente omogeneo, inattaccabile da qualsiasi tipo di sostanza acida o alcalina.

La tecnologia e la duttilità di questo materiale consentono di progettare l'ambiente bagno realizzando qualsiasi tipo di misura per assecondare e soddisfare le richieste più esigenti.

1 Materiale ecologico per eccellenza, ricavato da elementi naturali, non presenta né resine né solventi.

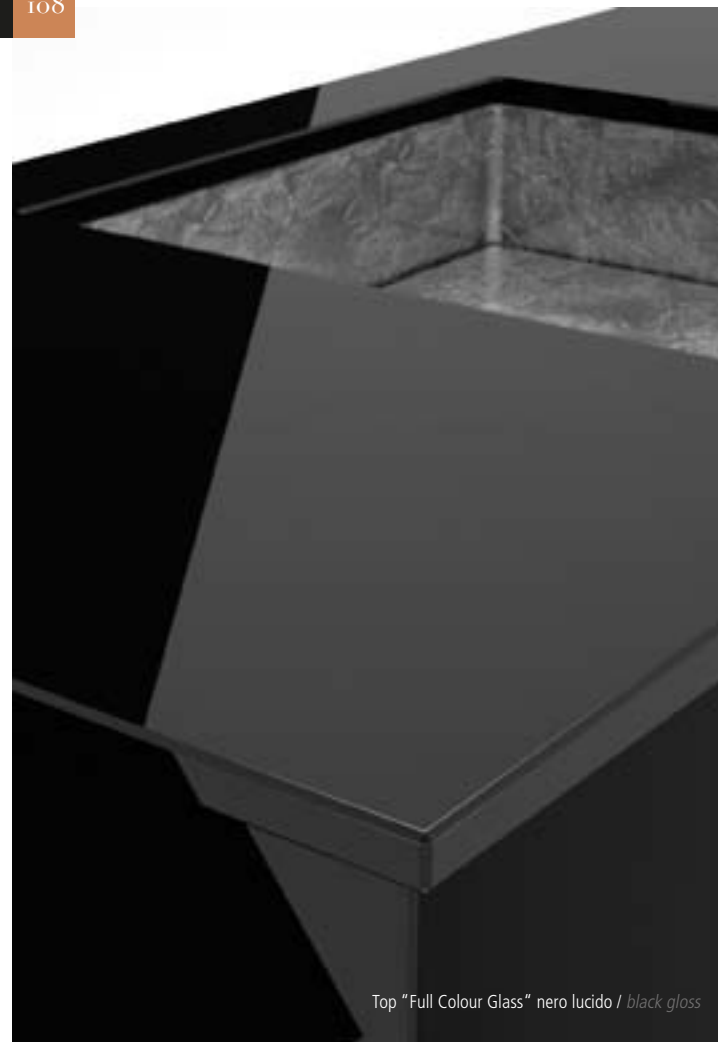

2 Riciclabile al 100%

3 Inattaccabile dal calcare

4 Colore inalterabile, resistente anche ad esposizioni prolungate ai raggi UV.

5 Resistente a qualsiasi prodotto usato per la pulizia del bagno.

6 Facile da pulire.

Top “Full Colour Glass” nero lucido / black gloss

Top “Full Colour Glass” nero opaco / black mat

Sotto

“**FULL COLOUR GLASS**” top with undermounted washbasin

The “Full Colour Glass” Tops are conceived to provide a simple elegance and a perfect fit with the entire drawers and suspended tall cabinets.

Elegance and design, creativity and functionality.

Tops are supplied with central hole and undermounted washbasin already assembled in the chosen finishes, allowing a perfect and easy installation.

PERFECT AND UNALTERABLE REFLECTIONS.

A new material with unique features.

It is obtained through a process of dissolution and crystallization of ceramics and silicon parts. The process is very similar to the natural characteristics of granite formation. Its feature is very similar to marble, but with advantages in terms of hardness, brightness and resistance.

It is homogeneous, durable, acid and alkaline proof.

The technology and the ductility of this material allow to design your bathroom in any customised dimensions in order to meet individual requirements.

1 Ecologic material par excellence, obtained from natural elements, free from resins and from solvents.

2 100% recyclable.

3 Not affected by limestone.

4 Durable colour, resistant to prolonged UV-rays exposition.

5 Resistant to any product used for bathroom cleaning.

6 Easy to clean.

Personalizza

Il sistema "SOTTO" Glass Design amplia ulteriormente gli orizzonti della creatività col suo programma di personalizzazione raggiungendo misure e configurazioni estremamente libere.

Il programma prevede la configurazione con uno o più lavabi "SOTTO" quali Blade, Four, Rho, Flou, Bolla e Yacht.

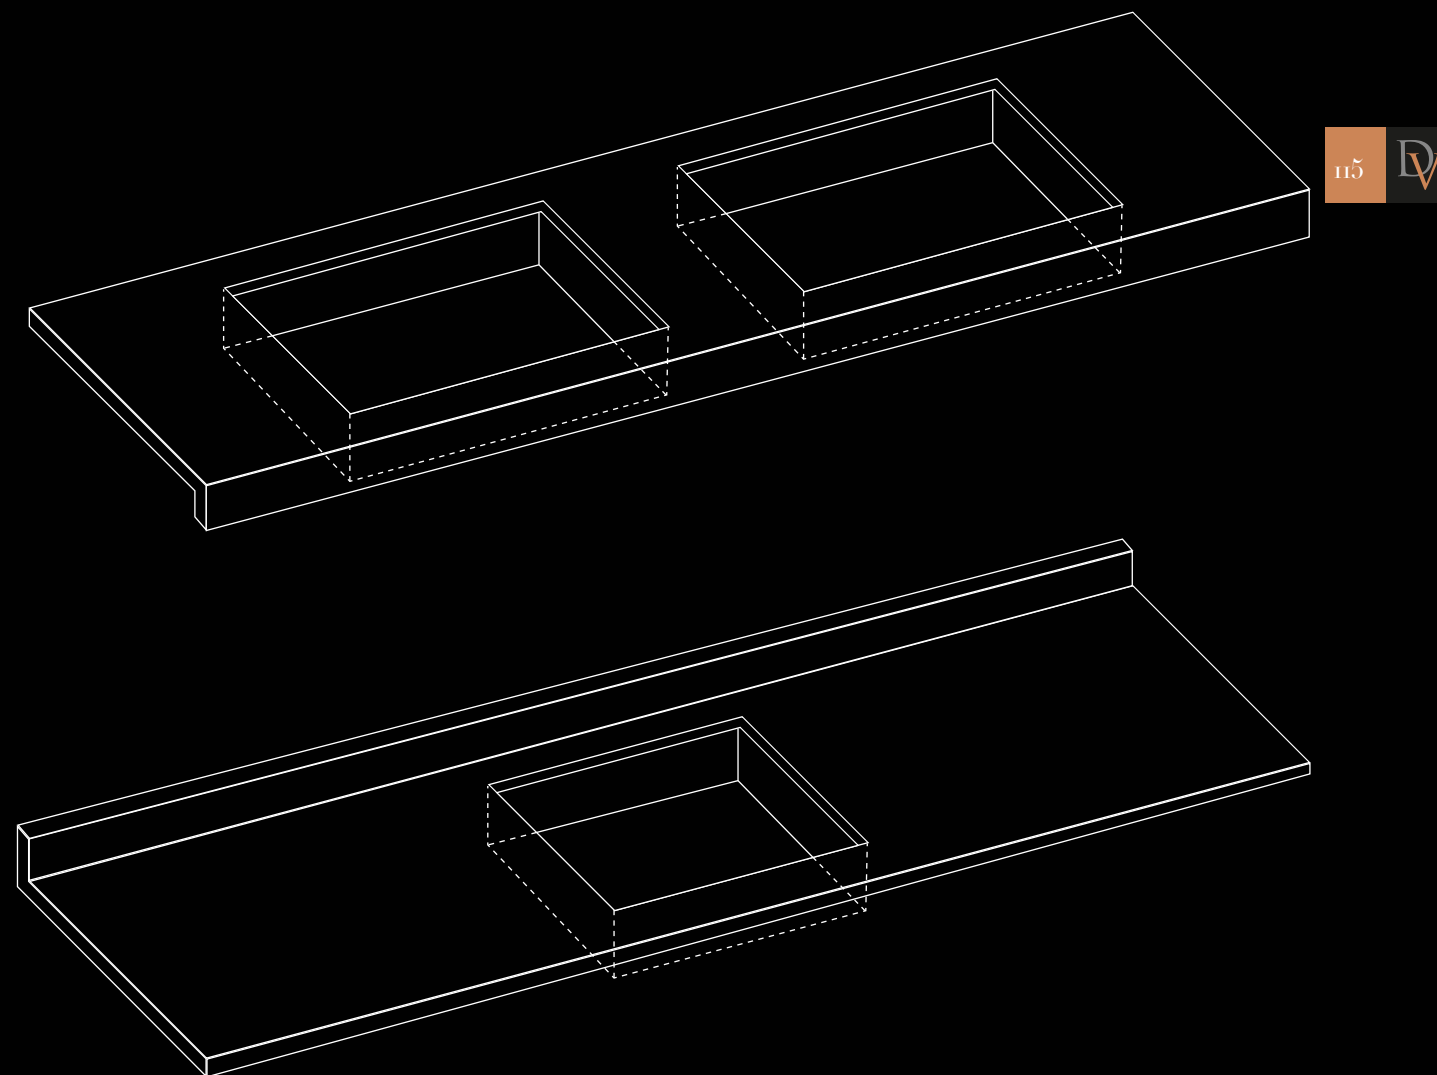

Full Colour Glass Top dimensioni / sizes:

Customise

The new Glass Design "SOTTO" system extends further the creativity with its custom-made program by reaching sizes and solutions "tailor made".

With this program we can combine one or more "Sotto" washbasins: Blade, Four, Rho, Flou, Bolla and Yacht.

MOBILI FURNITURE SOLUTIONS

Il lusso nel piccolo *A luxury space saving solution*

La nostra filosofia è creare oggetti che al di là della loro dimensione possono suscitare emozioni e al tempo stesso siano pratici e tecnicamente funzionali. Abbiamo pensato ad un prodotto adatto anche agli spazi più contenuti, riuscendo a realizzare mobili in stile moderno, classico e contemporaneo che potessero impreziosire anche il bagno più piccolo.

Our philosophy is to create objects that stir up emotions larger than their size while at the same time exhibiting technical functionality and practicality. We have created a product suitable for even the smallest of spaces, managing to create furniture in classic, contemporary and modern styles that will enrich even the smallest bathroom.

“Monnalisa”

Affascinante come il concetto che lo ha ispirato.

As fascinating as the concept that inspires it.

DOCCIA

SHOWER TRAYS SOLUTIONS

The background of the entire image is a close-up, horizontal view of a wooden surface. It shows the natural grain of the wood, with various shades of light brown and tan. There are prominent wavy lines and knots throughout, giving it a textured and organic appearance. The lighting is even, highlighting the natural patterns of the wood.

L'essenza della
NATURA
del legno prezioso

The natural essence of enriched wood

La serie Natura Lux comprende piatti doccia, top per lavabi e lastre di rivestimento per garantire la massima coordinabilità.

Realizzati in Teknoform®, il materiale delle texture a rilievo, vi doneranno la vera essenza del legno.

Il composto di resine termoindurenti, cariche di minerali naturali, è impreziosito con smalti in oro o argento e trasformano il prodotto in un vero e proprio oggetto d'arredo.

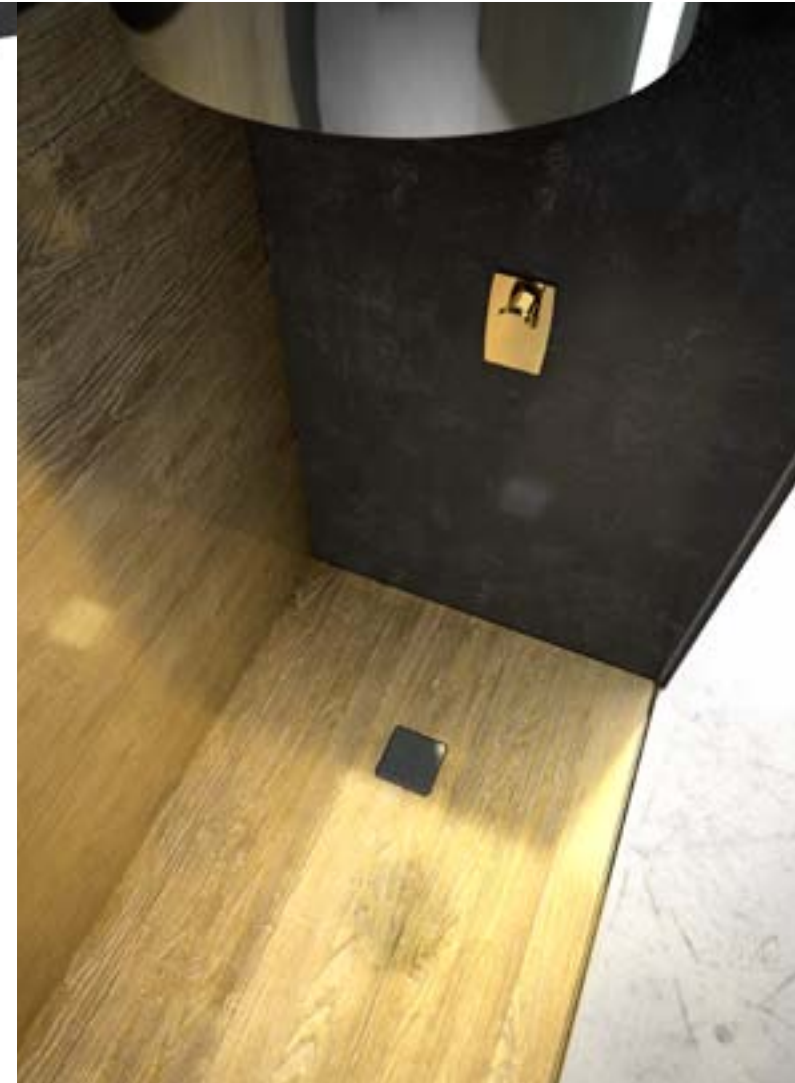

The NATURA LUX collection includes shower trays, tops and wall-covering tiles, all designed to match the full product range.

NATURA LUX is finished in our Teknoform® texture relief material, lending the collection the true essence of wood. The special composition of resins mixed with mineral fillers is enriched with precious gold and silver enamels, creating a true furnishing object.

NATURA LUX

NATURA LUX GOLD

Texture legno a rilievo
con smalto oro su avorio.

• PIATTI DOCCIA

Oltre alla loro eleganza ed originalità stilistica, i piatti doccia si distinguono per la loro flessibilità di posa e l'ampio assortimento dimensionale che va da 80 cm fino ai 200 cm. Grazie allo spessore ridotto di soli 3 cm, il piatto doccia può essere installato filo pavimento o in appoggio. Ogni piatto doccia è provvisto di griglia in acciaio inox.

• LASTRE DI RIVESTIMENTO

Le lastre di rivestimento sono il complemento ideale per il piatto doccia. La loro lunghezza segue quella dei piatti doccia che va da 80 cm fino a 200 cm con un'altezza di 55cm

Wood relief texture with gold enamel
on ivory colour base.

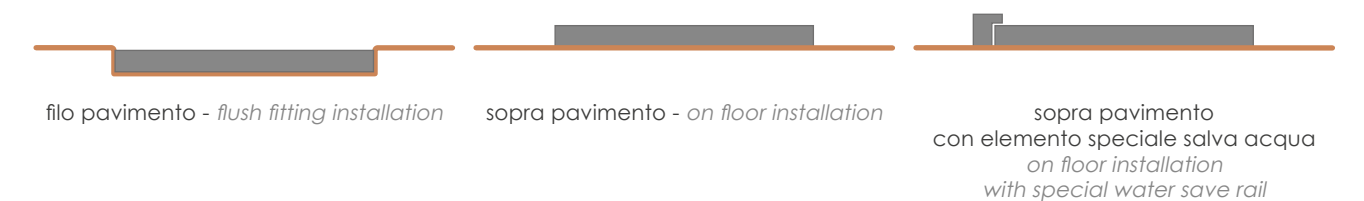

• SHOWER TRAYS

In addition to their elegance and originality of style, the shower trays are distinguished by their flexibility of installation and dimensions ranging from 80cm to 200cm. Thanks to the reduced thickness of only 3cm, the shower tray can be installed either on top or flush with the flooring. Each shower tray is supplied with a stainless steel drain.

• WALL COVERING TILES

Wall covering tiles are the perfect complement to the shower tray. Their sizes follow those of the shower trays with a length ranging from 80 cm to 200 cm and a height of 55 cm.

Il fascino di una
TERRA
pregiata

The fascination of precious ground

La serie TERRA LUX comprende piatti doccia, top per lavabi e lastre di rivestimento per garantire la massima coordinabilità. Realizzati in Teknoform®, il materiale delle texture a rilievo, vi doneranno la vera essenza della pietra. Il composto di resine termoindurenti, cariche di minerali naturali, è impreziosito con smalti in oro o argento e trasformano il prodotto in un vero e proprio oggetto d'arredo.

The TERRA LUX collection includes shower trays, tops and wall-covering tiles, all designed to match the full product range. TERRA LUX is finished in our Teknoform® texture relief material, lending the collection the true essence of stone. The special composition of resins mixed with mineral fillers is enriched with precious gold and silver enamels, creating a true furnishing object.

TERRA LUX

TERRA LUX SILVER

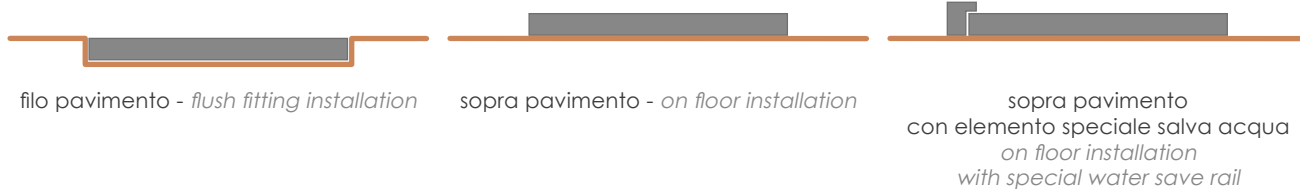

Texture pietra a rilievo
con smalto argento su avorio

- **PIATTI DOCCIA**
Oltre alla loro eleganza ed originalità stilistica, i piatti doccia si distinguono per la loro flessibilità di posa e l'ampio assortimento dimensionale che va da 80 cm fino ai 200 cm. Grazie allo spessore ridotto di soli 3 cm, il piatto doccia può essere installato filo pavimento o in appoggio. Ogni piatto doccia è provvisto di griglia in acciaio inox.
- **LASTRE DI RIVESTIMENTO**
Le lastre di rivestimento sono il complemento ideale per il piatto doccia. La loro lunghezza segue quella dei piatti doccia che va da 80 cm fino a 200 cm con un'altezza di 55cm.

Stone relief texture with silver enamel
on ivory colour base.

- **SHOWER TRAYS**
In addition to their elegance and originality of style, the shower trays are distinguished by their flexibility of installation and dimensions ranging from 80cm to 200cm. Thanks to the reduced thickness of only 3cm, the shower tray can be installed either on top or flush with the flooring. Each shower tray is supplied with a stainless steel drain.
- **WALL COVERING TILES**
Wall covering tiles are the perfect complement to the shower tray. Their sizes follow those of the shower trays with a length ranging from 80 cm to 200 cm and a height of 55 cm.

The background of the entire image is a close-up, high-resolution photograph of a dark wood surface. The wood grain is prominent, showing a mix of straight and wavy lines in various shades of dark brown and black. There are several knots visible, adding to the natural texture. The lighting is slightly uneven, creating subtle gradients of dark tones across the surface.

L'essenza
NATURALE
del legno

The natural essence of wood

La serie Natura comprende piatti doccia, top per lavabi e lastre di rivestimento per garantire la massima coordinabilità. Realizzati in Teknoform®, il materiale delle texture a rilievo, vi doneranno la vera essenza del legno. Il composto di resine termoindurenti, cariche di minerali naturali, trasformano il prodotto in un vero e proprio oggetto d'arredo.

The NATURA collection includes shower trays, tops and wall-covering tiles, all designed to match the full product range. NATURA is finished in our Teknoform® texture relief material, lending the collection the true essence of wood. The special composition of resins mixed with mineral fillers lets the product become a true furnishing object.

Le lastre di rivestimento sono il complemento ideale per il piatto doccia. La loro lunghezza segue quella dei piatti doccia che va da 80 cm fino a 200 cm con un'altezza di 55cm.

• TOP

Il piano lavabo è realizzato in Teknoform®, con texture pietra a rilievo. Disponibile in 2 misure: L 100/120 x 50 x H 10 cm.

• LAVABO LAGUNA

Lavabo da appoggio in vetro di Murano fornito con piletta e anello cromati.

• SHOWER TRAYS

In addition to their elegance and originality of style, the shower trays are distinguished by their flexibility of installation and dimensions ranging from 80cm to 200cm. Thanks to the reduced thickness of only 3cm, the shower tray can be installed either on top or flush with the flooring. Each shower tray is supplied with a stainless steel drain.

• WALL COVERING TILES

Wall covering tiles are the perfect complement to the shower tray. Their sizes follow those of the shower trays with a length ranging from 80 cm to 200 cm and a height of 55 cm.

• TOP

The Top is produced in Teknoform® with stone relief texture. Available in 2 sizes: W 100/120 x 50 x H 10 cm.

• LAGUNA WASHBASIN

Counter top washbasin in Murano glass supplied with chrome waste and base ring.

Note Tecniche

Tutti i prodotti delle serie NATURA Lux, NATURA, TERRA Lux e TERRA sono realizzati in TeknoForm®, una resina termoindurente e cariche di minerali naturali, con esclusiva texture in legno e pietra.

Tutti gli elementi sono prodotti con pigmenti colorati, integrati nel materiale e rivestiti da un film protettivo ad elevata durezza. Il film esterno garantisce, inoltre, un' alta resistenza alle macchie e agli acidi, agevolandone la pulizia.

Entrambe le texture hanno un effetto a rilievo che rende i piatti doccia antiscivolo.

Per la pulizia quotidiana è sufficiente usare una spugna non abrasiva, acqua ed un detergente neutro (per essere sicuri che il detergente sia veramente neutro deve essere specificato sul flacone). Non usare detergenti acidi, basi forti e solventi.

SOLO PER SERIE TERRA: nel caso in cui le superfici siano state danneggiate o graffiate, si può ripristinare mediante l'apposito kit ritocco ordinabile a catalogo. Il kit comprende: una carta abrasiva per stondare eventuali parti taglienti dovute al danneggiamento, una resina bicomponente liquida colorata, da usare successivamente per ripristinare il film protettivo.

I piatti doccia si posano su massetto rasato impermeabilizzato, utilizzando collanti specifici quali MAPEI GRANIRAPID, KERAKOOL H40 o simili. Il collante deve essere di colore bianco.

Prima della posa, verificare che il piatto doccia sia perfettamente planare. Nel caso presenti incurvamenti dovuti all'elasticità del materiale, disporre il piatto su un piano e mantenerlo in questa posizione per circa 4 ore. Dopodichè, assicurarsi che sia tornato planare e procedere alla posa, facendo attenzione a posizionarlo in bolla, verificandolo con la livella sui 4 lati.

I piatti doccia rispettano la normativa CSA B45.5-11/IAPMO Z124 2011 riguardante la pendenza minima dell'1% che garantisce un corretto deflusso dell'acqua. A causa del fenomeno fisico denominato "tensione superficiale" , correlato alla rugosità del materiale, è possibile che sulla superficie restino alcune gocce d'acqua. Questo fenomeno è accentuato nei casi in cui la durezza dell'acqua risulti essere maggiore.

Technical Remarks

All products of NATURA Lux, NATURA, TERRA Lux and TERRA are realised in TeknoForm®, a thermosetting resin with natural mineral charges, with exclusive wood and stone texture.

All the products are produced with coloured pigments, contained in the material, and covered by a protective film, with high hardness. The external film guarantees high spots and acids resistance.

Both the textures have relief effect that makes the shower tray extremely anti-slip.

For ordinary cleaning it is enough to use a non-abrasive sponge and neutral detergent (as identified on the bottle). Do not use acid detergents, strong bases or solvents and do not use an abrasive sponge for the cleaning of the surface.

ONLY FOR TERRA SERIE: in case the surfaces are damaged or scratched, it is possible to restore it with the proper maintenance kit that can be ordered from the catalogue. The kit includes abrasive paper, which is used to round possible sharp parts caused by the damage. The bi-component liquid and coloured resin is used to restore the protective film.

The shower bases are laid on smooth and waterproofed subfloor, using specific adhesives such MAPEI GRANIRAPID, KERAKOLL H40 or similar. The glue should be white in colour.

Before laying, verify that the shower base is perfectly plane. In case of slight warpage, caused by the elasticity of the material, lay the shower base on a flat surface and keep it on this position for about 4 hours. After that verify its planarity and proceed with the installation by laying the tray flat, paying attention to fit-it level and verifying it on all 4 sides

The shower bases are in compliance with CSA B45.5-11/IAPMO Z124 2011, regarding the minimum slope of 1% that grants a correct flow of water. Because of the physical phenomenon called "superficial tension", in connection with the roughness of the material, it is possible that there can be some water drops on the surface. This phenomenon can become more marked in hard water areas.

VetroFreddo®

Il VetroFreddo® è un materiale innovativo, composto da pigmenti vetrosi e resine. La sua caratteristica principale è la sua versatilità nell'adattarsi a qualsiasi tipo di forma. E' l'esaltazione della materia che si esprime attraverso l'anima del suo colore. La natura della sua materia, composta da pigmenti vetrosi e pertanto trasparenti, permette al VetroFreddo® di avere uno dei suoi principali punti di forza, e cioè la possibilità di esprimersi in colori trasparenti, traslucidi od opachi. Nessun limite quindi a livello cromatico e, oltre alla gamma di colori già esistente, è possibile scegliere in base alle proprie esigenze, uno dei numerosi colori presenti nella mazzetta "RAL". Il VetroFreddo® ha una resistenza termica di circa 100°C e può essere lavorato con gli stessi utensili del marmo o del vetro. Tutti gli oggetti in VetroFreddo® si possono lavare con qualsiasi tipo di sapone o detergente neutro non granulare, usando panni o spugne non abrasive. In caso di graffi superficiali, si può ripristinare l'oggetto intervenendo con un panno imbevuto di olio d'oliva o una semplice crema per le mani. In caso di graffi più profondi, è possibile ripristinare con una speciale carta vetro suggerita dal produttore in base al colore o al tipo di oggetto.

VetroFreddo® is an innovative material composed of glass pigments and resin. Highly versatile, its aesthetic characteristics are unique in that it can present as transparent, semi-transparent or opaque due to the composition of glass pigments. Vetro Freddo is likewise heat resistant up to temperatures of 100c, and can be crafted in a fashion similar to marble or glass. With regards to colour, the possibilities are endless. Any colour from the "RAL" colour scheme can be chosen and easily adapted. VetroFreddo can be cleaned with any type of non-granular soap, using soft sponges or tissues.

In the event of superficial damage (scratches), the damaged area should be gently rubbed with a sheet soaked in olive oil.

In the case of deeper scratches or damage, a special replacement glass paper is available from the manufacturer for the white colour.

Pert®

polimero tecnologico

Il Pert® è un polimero tecnologico dalle qualità eccezionali, che unisce un basso peso specifico ad un'elevata resistenza meccanica. Particolarmente adatto in quei settori dove l'esigenza della leggerezza del peso è fondamentale (nautico, aereo, camper...). E' un materiale che permette la realizzazione di prodotti di elevato design, eseguiti a regola d'arte, rispettando angoli, raggi, bassorilievi e planarità con la possibilità di scelta tra una vasta gamma di colori, personalizzabili a richiesta.

Pert® is a technological polymer of extraordinary quality, combining a low density with high mechanical resistance. It is particularly suited to fields where low density materials are essential (e.g. in nautical, aeronautical, camping, ...). This material likewise enables the creation of perfectly crafted angles and smooth surfaces. Products made from Pert are also available in a wide selection of colours.

“Materiali & Certificazioni”

Materials & Certifications

Il vetro di Murano è da sempre sinonimo di raffinatezza, leggerezza ed eleganza.

I maestri vetrai hanno saputo sviluppare tecniche di lavorazioni privilegiate, nel rispetto della millenaria tradizione che rende il vetro di Murano un prodotto unico, prestigioso e inimitabile.

Murano glass is a synonym for elegance and timelessness.

By combining innovative techniques with traditional artisan workmanship, unique, prestigious and inimitable objects are created.

TeknoForm® è il materiale delle “texture”, costituito da polimeri di varia natura, si esprime dando vita a prodotti monoscocca, esaltando le sue superfici. Dai mosaici alle pietre, dai marmi ai legni, tante soluzioni che danno vita a prodotti unici.

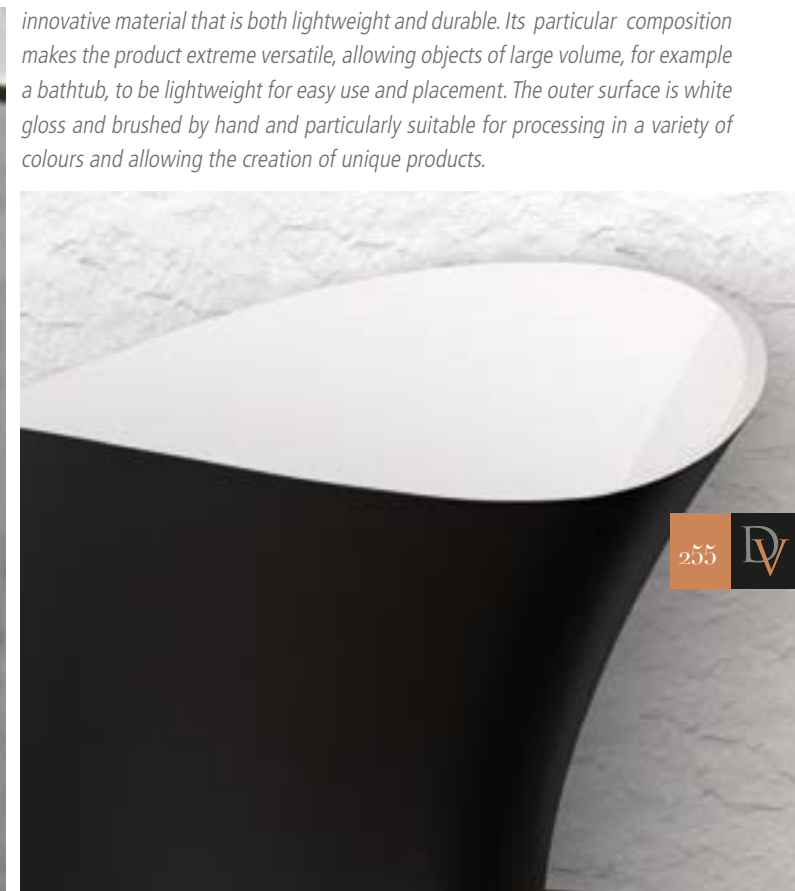

TeknoForm® is a polymer-based material, capable of mimicking a variety of textures from mosaics to stone, marble to wood, from which an incredible variety of options can be realised through the use of this material.

Prodotto hi-tech, elegante e contemporaneo che nasce da una fusione di lega di alluminio. La decorazione è realizzata a pennello, con la tecnica del graffiato, per ottenere un effetto bicromatico. Il bordo è spazzolato e lucidato a mano, per valorizzare l’anima ed il colore tipico di questo materiale.

A high-tech product, both elegant and contemporary, born from a merger of aluminum alloys. The decorations are brush-painted, employing a special brush technique in order to obtain a bi-chromatic effect. The board is brushed and polished by hand to enhance the soul and color, which are typical for this material.

Il Bi-Mat nasce dalla fusione di fibra di vetro (80%) con VetroFreddo Light, integrati tra loro per produrre un materiale innovativo, ultraleggero e resistente. La sua particolare composizione rende il prodotto estremamente versatile, conferendo leggerezza ad oggetti di grossi volumi, come nel caso delle vasche, facilitandone l'utilizzo e la collocazione. La superficie esterna si presenta bianca semilucida frutto della spazzolatura a mano ed è particolarmente idonea ad essere trattata nelle svariate tonalità cromatiche, permettendo di creare prodotti unici.

Bi-Mat is born in the merger of fiberglass (80%) and Cool Glass Light, creating an innovative material that is both lightweight and durable. Its particular composition makes the product extreme versatile, allowing objects of large volume, for example a bathtub, to be lightweight for easy use and placement. The outer surface is white gloss and brushed by hand and particularly suitable for processing in a variety of colours and allowing the creation of unique products.

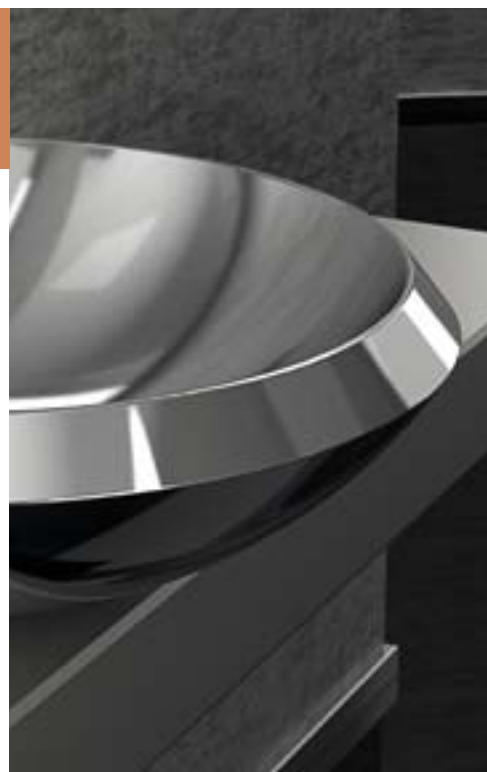

Nuova tecnologia applicata per dar vita ad un prodotto inox (18/8) tridimensionale.

Peso specifico ridottissimo nonostante i volumi.

Varie sono le espressioni cromatiche dal colore tipico dell'inox lucido, spazzolato fino all'ultima generazione di colori high-tech.

The products of the INOX ZERO Collection are made out of stainless steel (18/8), utilising advanced production processes enabling the combination of expressive design with of low weight. A wide range of colours can be achieved, from timeless metallic shades to prestigious brushed and avant-garde colours.

Collezioni esclusive, realizzate in cristallo purissimo al 24% pb.

Si tratta di prodotti raffinatissimi, soffiati a bocca e molati a pietra con abilità, dai nostri maestri secondo le più antiche e nobili arti vetrarie. Nessuna macchina, nessuna tecnologia, ma solo prodotti d'arte, classici, contemporanei ... futuristici.

Exclusive collections created from pure crystal with 24% lead content.

These utmost refined products are mouth-blown and bevelled in stone by our master artists according to the most ancient and noble glass arts. Neither machines nor technology are employed in the process, resulting in classical, contemporary or futuristic art products.

Il progetto Atelier nasce dalla ricerca stilistica che una nostra equipe interna realizza rivolgendo lo sguardo al mondo della moda. I colori e le texture che vengono rappresentati nel programma sono la sintesi delle nuove tendenze.

The “Florence Glass Atelier” project aims to incorporate fashion philosophy into product research through enhancing crystal material with colours and textures of fashion trends.

Full Colour Glass

Riflessi perfetti e inalterabili.

Una nuova materia dalle caratteristiche uniche.

Ottenuto attraverso un procedimento di scioglimento e cristallizzazione di ceramiche e particelle di silicio, un processo molto simile alle condizioni naturali di formazione del granito. Il suo aspetto esteriore invece è molto simile al marmo, ma con caratteristiche di durezza, lucentezza, inassorbenza e resistenza nettamente superiori. Assolutamente omogeneo, inattaccabile da qualsiasi tipo di sostanza acida o alcalina.

La tecnologia e la duttilità di questo materiale consentono di progettare l'ambiente bagno realizzando qualsiasi tipo di misura per assecondare e soddisfare le richieste più esigenti.

- 1

Materiale ecologico per eccellenza, ricavato da elementi naturali, non presenta né resine né solventi.
- 2

Riciclabile al 100%.
- 3

Inattaccabile dal calcare.
- 4

Colore inalterabile, resistente anche ad esposizioni prolungate ai raggi UV.
- 5

Resistente a qualsiasi prodotto usato per la pulizia del bagno.
- 6

Facile da pulire.

Perfect and unalterable reflections.

A new material with unique features.

It is obtained through a process of dissolution and crystallization of ceramics and silicon parts. The process is very similar to the natural characteristics of granite formation.

Its feature is very similar to marble, but with advantages in terms of hardness, brightness and resistance.

It is homogeneous, durable, acid and alkaline proof.

The technology and ductility of this material allow to design your bathroom in any customised dimensions in order to meet individual requirements.

- 1

Environmentally friendly; obtained from natural elements, free from resins and solvents.
- 2

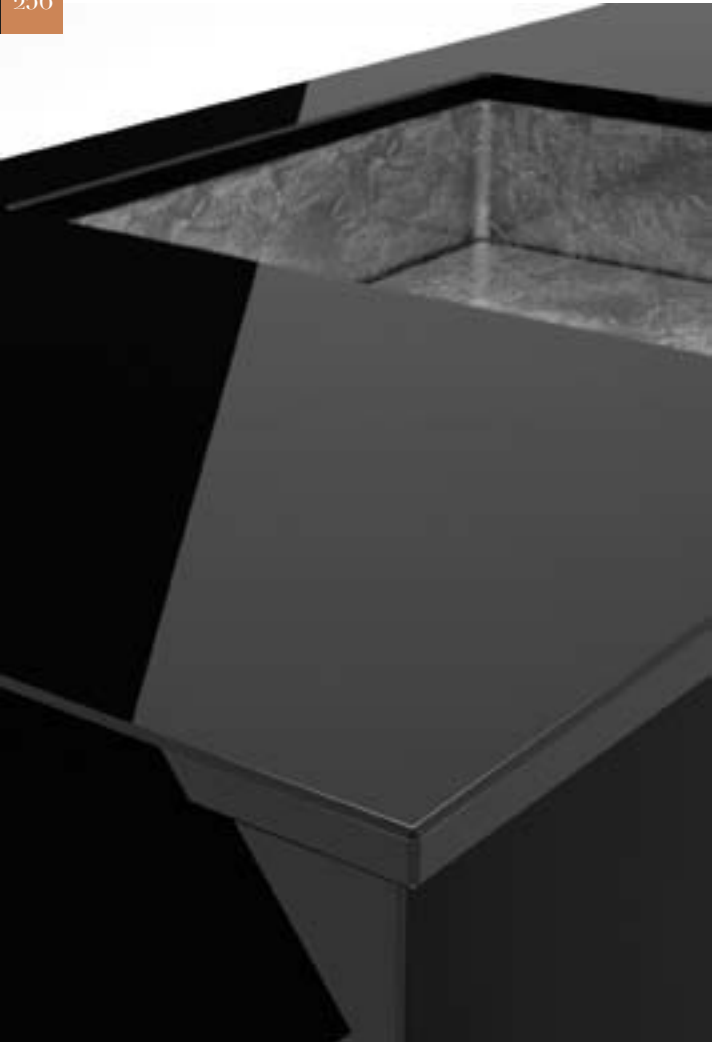

100% recyclable.
- 3

Unaffected by limestone.
- 4

Excellent colour durability; resistant to prolonged UV rays exposure.
- 5

Resistant to all bathroom cleaning products.
- 6

Easy to clean.
